

## FIND ODD NAMES IN WOODMEN LIST

THE DISCOVERIES OF SECRETARY  
NEWMAN OF MILWAUKEE.

### BOOZE, DRY AND DRINKALL.

Mr. Death Is Also a Member; Then  
There Are Cabbage, Orange, Garlic,  
Peas, Pea, Oyster, Pancake.

"I have just been browsing through a list of several hundred thousand names of Modern Woodmen," said T. W. Newman, a prominent Woodman who recently visited here, "and I find many peculiar names. For example, one is Peter April of Duck Creek, Wis., and U. S. An of Mansfield, O. At South Bend, Ind., where the principal industry is the manufacture of wagons, we have a member whose name is Beerwagon. Mr. Booz lives at Powell, Neb., and I am told that he never touches it at all. In Wooster, O., we have W. A. Buggs, and at Northrup, Minn., Jacob Barrels, while at Danville, Ill., lives Edward Buy. Mr. Colt lives at Gruver, Ia., and Mr. Buggy at Finlayson, Minn. Mr. Chicken lives at Venus, Neb., and Charles Cheese in Milwaukee. Mr. Canine lives in Topeka, Kas. Mr. Cheap's address is Ashland, Ky. R. T. Chew lives at Ottumwa, Ia., and Mr. Cabbage at Eby, Ind. William Dogs is a member in good standing and he lives at Mauston, Wis. Charles Death lives at Coloma, Md., and has lived a long time with that name, for he has been winning dues for a great many years. John L. Dry, another member, lives at Southwest City, Mo. We will try to keep him moistened if he shows up at the meetings; but if Mr. Druktall of Morning Sun, Ind., comes this way we will see to it that he does not overland. In the list of D's I find W. H. Dear of Muskegon, Mich., a Dearlove, and a Daisy, and any number of Darlings. "Germans will appreciate the name of Fogelson, one of which we have on the list. He is a bird, and slings at Ewen, Mich. Mr. Flst lives at Ottumwa, Ia., and Mr. Flightmaster at Oklahoma City. If there is any trouble in Milwaukee during the head camp meeting we shall call on both of these members to take a hand. If they need help they may bring in Mr. Fite of Herndon, Mo., and Mr. Gun of Altoona, Pa. J. J. Tank, a well-known member, lives at Mendon, Ill. But he is not one of the kind you hear about, and I am told that Dr. Greasy of Bloomington, Ill., is one of the neatest men in our ranks. "M. Goodnature of Burlington, Wis., is said to be well named. There are lots of Goodnesses, Goodspeeds, not a horseman, and Mr. Goodpastor of Summit, Wash., who is not a preacher, either. We also have a Good-morning and a Goodnight. The former lives in Indiana and the latter at Santa Ana, Cal. Gallopols, O., furnishes us with E. L. Gardie; Noble, Ill., T. S. Pea; Pueblo, Colo., J. R. Pench; La Grange, Mo., W. E. Oyster; Springfield, Ill., W. B. Pickering; Williamsville, Ill., Isaac Pancake; La Grange, Mo., J. J. Orange—enough to make a fairly good menu. But, if it is not enough, we have Pigeon, Partridge, Pigge, Pear, and Pickles, the latter living at Anna, Ill. "Mr. Poison of Westbrook, Me., and Henry Pie of La Crosse, Wis., are side by side on our rolls. Mr. Petty-foot is a member of a camp at Blue Mound, Kas. "Pay, Pay, See, Saw, Ek, Shy, Six, Srp, Son, Sex, Up, Was, Yes, and Yell are some of the short and odd names on the rolls."

**WOULD CURE DREAD  
MALADY IF POSSIBLE**  
Savant Suggests New Remedy for  
Spotted Fever in the Chi-  
cago Convention.

A new treatment by which it is thought spinal meningitis may be cured was advocated by Dr. Ludwig Hektoen, head of the department of pathology and bacteriology of the University of Chicago, before a session of the American Association of Pathologists and Bacteriologists. Dr. Hektoen suggested withdrawing a portion of the cerebro-spinal fluid from the spinal canal and injecting in its place pure serum taken from human blood. The effect of the serum, it is said, renders the bacteria fit for destruction by the disease destroyers, the white corpuscles of the blood cells which line the spinal canal. Spinal meningitis, according to the explanation of Dr. Hektoen, is caused by germs in the cerebro-spinal fluid of the spinal canal. These germs multiply until the fluid is filled with bacteria and inflammatory exudation. Under normal conditions the white corpuscles of the blood destroy poisonous germs, but the effect of the bacteria upon the cerebro-spinal fluid, Dr. Hektoen asserts, is such as to render the action of the corpuscles abortive, or to prevent such action entirely. After a portion of the fluid is withdrawn from the spinal canal the serum may be injected by means of a sharp pointed syringe into the opening in the spinal cord. The fluid

## MISS ROSA McAHAN OF BUTTE.

How After Two Years She Found a  
Remedy for Dandruff.

Miss Rosa McAhana of 211 West Quartz street, Butte, Mont., says: "Herpetide has thoroughly cleansed my scalp of dandruff, with which it was entirely covered, and it has stopped my falling hair. I have tried many different preparations in the past two years, but none took effect except Newbro's Herpetide." Dandruff is a germ disease and Herpetide is an infallible destroyer of the germ. "Destroy the cause, you remove the effect." Kill the dandruff germ. Ask your druggist for Herpetide. It is a delightful dressing; it dries itching; makes the hair soft as silk. Sold by leading druggists. Send 10c in stamps for sample to The Herpetide Co., Detroit, Mich.

which is withdrawn, Dr. Hektoen says, will be replaced gradually by natural processes. Although the treatment has not been tried upon human beings as yet, Dr. Hektoen says he has experimented successfully with animals, and has effected numerous cures, which he believes are permanent. It is his intention to experiment upon a human subject in the near future. "Bacteria," said Dr. James Ewing of New York, president of the association, in a paper following that of Dr. Hektoen, "settle most readily in the nose. They are breathed into the nose, passed on to the brain, and from there to the seat of trouble in the spinal canal. As infection takes place most readily in the nose, so are the germs passed from one person to another through the nose, the person infected breathing out the germs for others to inhale."

## TEAM RUNS AWAY; WINSHIP INJURED

Well Known Evansville Veterinarian  
Victim of Accident—Other  
Evansville News.

[Special to the Gazette.]  
Evansville, April 25.—On Saturday morning while Charles Winship had his team hitched onto a manure-spreader, they became unmanageable and ran down an alley in the rear of H. W. Fellows & Sons' farm machinery building. Mr. Winship was thrown to the ground and two wheels of the spreader passed over his body. He was carried to his home and medical aid was at once summoned. It was found that no bones were broken, but it is feared he has sustained internal injuries. He now lies in a very critical condition. Mr. Winship is one of the best known veterinary surgeons in this vicinity and is the owner of a large livery business.

**Easter Services**  
The Easter services at St. John's Episcopal church Sunday morning were largely attended. The music rendered by the vested choir consisting of about twenty-five voices was unusually fine. The solo parts in the anthem were taken by Mrs. Charles E. Copeland and Herbert Durner and were beautifully rendered. In the communion service the Agnus Dei was sung by Isabelle Shurman.

## TUBERCULOSIS IN HERDS OF COUNTY

State Veterinarian Roberts Condemns  
Four Head of Cattle on Jenkins  
Strong Herd Reported Diseased.

State Veterinarian E. D. Roberts has condemned four head of cattle on the farm of Fred C. Jenkins in the town of Harmony, having ascertained that they were afflicted with tuberculosis. The symptoms of the disease in some of his herd of thirty were reported by Mr. Jenkins who requested that a test be made. Drs. Rhodes and Patterson of Beloit report that the disease has appeared on the Strong farm near the Line city and the Beloit doctors will make tests. Doctor George Little, assistant state veterinarian, returned yesterday from Lafayette, where he found a herd of cattle out of a herd of seventy-two. The owner had been shipping his stock to the Chicago market for four years past but in most instances they had been refused at the stockyards. Owners of stock are acting in conjunction with the state authorities in the effort to stamp out this dreaded disease. With few exceptions it has been the stock-owner himself in Rock county who has called for the test. As a result of this co-operation an effective check is being enforced against the ravages of the disease in county and state. It is believed that the work of State Veterinarian Roberts and his assistants in Wisconsin will yield large returns in the future. Dr. Roberts is today at Kenosha, where he is inspecting a herd.

## MUSIC PROMINENT FEATURE OF BILL

Number of Exceptionally Good Van-  
deville Acts at West Side  
This Week.

With a bill of excellent vanderdeville numbers, several of which are musical, a large audience was pleased at the West Side theatre last evening. There was a great deal of novelty about a number of acts and applause evinced the fact that it was recognized and appreciated. Richards, the juggler, hoop-roller and foot-balancer, opened the bill and gave an exhibition of his strange and interesting skill. The musical skit, "The Messenger Girl," presented by the Ramsey sisters, furnished much amusement. Flore Foster, the operatic singer, delighted her listeners with three selections—two encores. The dancing of Constance and Lawrence contained turns new to Janesville audiences. The Musical Forests, banjoists and xylophone artists, George Hatch singing two beautifully illustrated songs, "The Holy City" and "Jenny Dear," Pope and his intelligent dog and the projectoscope with five new and interesting films, made up the rest of the good program.

## TEN PARTICIPATED IN THE FIRST RUN

Cross County Running Will Un-  
doubtedly Prove Popular  
Here This Summer.

In the first cross country run of the season, held under the direction of physical director J. A. Ward of the Y. M. C. A., nine members of the association and Mr. Ward participated. The course lay from the building out Mineral Point avenue a ways, cutting across to Pleasant street in the vicinity of the brick yards and down that avenue to the starting place, a distance of about three and a quarter miles. This course was done in twenty-two minutes, without hardship to the runners and furnishing them enjoyable and healthful exercise. The next run will be held Saturday evening and a different route will then be taken, of about the same or little more length, being from three to four miles.

Several besides those who ran last evening will go on that excursion and from the present outlook the sport will prove a most popular one with the young men of this city during the coming summer. Those who went, Rollo Dobson, Rexford Brown, Fred Wilkerson, Clarence Brown, Arthur Clark, Ernest Clark, Will Helse, Will Poenichen and D. Harker.

## MEN'S CLUB OF THE M. E. CHURCH

Eighty Members Enjoyed an Inter-  
esting Session Last Evening—  
"Good Fellowship" Discussed.

Eighty members of the Men's club of the Central Methodist church enjoyed their monthly banquet last evening. Supper was served by Mrs. Rothwell, assisted by Mesdames Stoller, Bag, Buck, Boomer, Robert Clark, and David Clark. A. D. North acted as leader of the discussion which followed and turned the gathering into an old-fashioned Methodist class-meeting, calling on every member present for a sentiment on "Good Fellowship," the topic of the evening. There was a general response and the session proved a very enjoyable one. The club will close its winter session with a Ladies' Night banquet on the evening of the last Monday in May.

## FOUR HUNDRED AT UNIQUE CLUB DANCE

Post-Lenten Season Opened with  
Brilliant Dance at Assembly  
Hall Last Evening.

By four hundred dancers making merry at Assembly hall under Unique auspices the opening of the post-lenten season was signaled last evening. It was the annual ball given by this organization of business men and all the appointments were on the usual elaborate scale. Bunting, cut-flowers, and palms decorated the hall and the orchestra stand occupied by Knoff & Hatch's musicians was solidly banked with potted plants. There were cozy corners and easy chairs and the whole scene was an inviting and alluring one. Dancing commenced shortly after eight o'clock and continued until one this morning. In the throng of guests were a number of visitors from Beloit, Rockford, La Crosse, Milwaukee, and Chicago. Those who superintended the arrangements were: Daniel Skelly, Morris Dalton, Mark Timmons, Webb Dudley, Alfred Jerg, and Charles Strickler. The floor committee consisted of Ernest Clemons, Charles Strickler, Thomas Baker, Webb Dudley, Alfred Jerg, and Martin Timmons.

ment, for which a call has just been issued, and which will be held at Detroit, Sept. 28 to Oct. 1. At that time many of the most important railway officials of the United States will confer with many hundred railway employees from the rank and file. The principal speakers of the occasion will talk upon labor problems with a view to trying to bring about a better understanding between railway managements and railway employees. If the biennial conference turns out to be the success, which is expected, the railway department of the association will hereafter take an active part in trying to smooth out the differences which arise from time to time between railway managements and labor unions.

**Often The Kidneys Are  
Weakened by Over-Work.**  
Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

## NOT IN THE DENTAL COMBINE.

These are trust busting times. There exists an IRON-CLAD agreement among the Dentists of Janesville whereby, over their written signatures and upon their word of honor, they AGREE TO OBTAIN CERTAIN PRICES FOR THEIR WORK. What is this but a TRUST? There's a dentist in Janesville who stands out from this combine. Let us see how this works: The combine agree to charge \$16 for Gold Crowns. Dr. Richards, being free to make his own prices, is making these gold crowns, guaranteed to be equal in every respect, for just \$5 each. He says he had rather work for a LARGE number of patients at a MODERATE profit, than to work for only an occasional man and have to charge him so much that EVEN HE won't come again. BEST PAINLESS METHOD AND ALL WORK GUARANTEED.

## NEWS FOR THE PLAY-GOERS

## For Her Sake.

The average theatrical manager of the present is so intent upon devising novelties to please the salient public that he too often overlooks the opportunities which are furnished by the older sort of dramas and melodramas. It is one of the most inspiring signs of the times, however, that the people are gradually abandoning the hackneyed farce comedies and the variety shows without variety for the good old-fashioned plays in which "heart interest" predominates. Proof of this statement

is found in the fact that one of the greatest successes of recent years has been achieved this season by a melodrama in which love is the prevailing sentiment. The title of the play is "For Her Sake," and the story deals with life in Russia and Siberia. The company who have the piece under their management have spared no labor or expense upon it and have succeeded in producing a melodrama which is without doubt superior to the average of its kind. "For Her Sake" will be seen at Myers Grand on Thursday.

Janesville Daily Gazette, Tuesday, April 25.—Clean the Streets.—His Honor, the Mayor requests us to say that it is expected that persons occupying lots on the business portion of the city, who clear the streets of their filth immediately. Persons interested will govern themselves accordingly.

Shall We Have It Here?—We understand that Mr. J. C. Spencer, secretary of the State Fireman's Association, proposes to call upon our business men during the week to see how much they will do towards securing the tournament at this place, which is to be held on the 23rd and 24th days of August. A united and strong effort will secure the tournament here. Shall we not have it?

The Assassins.

There is not the slightest danger that J. Wilkes Booth will elude the vigilance of the authorities and escape capture. It is not possible in the nature of things. Now-a-days, the most obscure murderer finds no security from arrest, this side of the grave. The mark of Cain is upon Booth and he cannot rest though he may fly to the uppermost parts of the earth. Every press in this and all other lands is already baying like a blood hound upon his track, and every telegraph pole is a mute but argus-eyed sentinel pledged for his arrest. The wings of the mourning are not swift enough for his purpose, nor is there any obscurity to screen him from the light of day. Like evil-doers everywhere, he must come to judgment sooner or later.

The News.

The New York papers generally

disagree with General Sherman's agreement with Joe Johnston and all lament his action. Some think that upon hearing of Mr. Lincoln's assassination Sherman got his eyes open, withdrew the fatal agreement, renewed the war, but that is not likely. Sherman just now is under a very black cloud, which we hope will soon pass away.

## GOOD ROADS.

The subject of good roads is always a timely topic and much agitation is going on just now, on this important subject. Congress is taking an interest in the matter and a government commission has been created and empowered to aid the several states in the construction of roads. Congressman W. P. Brownlow of Tennessee is the author of a bill now pending, which provides for paying half the expense from the United States treasury. Mr. Brownlow is writing a series of articles for publication. He says in part:

"In Europe, especially in the western half, which is covered by a network of the finest roads in the world, the maintenance of the roads is a recognized important function of government. That is not asked or expected here, but unless we greatly mistake the signs of the times and the current of popular thought on the subject, the American people are settling themselves toward a national road policy that will give to them a fair share in the distribution of that which primarily belongs to them. The American farmer cares nothing for the roads that lead to Rome. He is deeply concerned about the absence of decent roads that lead to market, to church and to school. He knows it to be as true now as in 1818, when Henry Clay declared it in congress, that the first direct effect of bad roads is on the agricultural community out of whose pockets comes the cost of hauling farm products to market. When the American farmer is standing all the time face to face with the fact that under present conditions he must sell his products each recurring year when prices are at the very lowest in order to be able to deliver while the roads are at their very best, he is not in the least concerned about the Apian Way. What he is studying about and worrying over is the bare right-of-way he is forced to use when going to town, to religious worship, or to the homes of his neighbors as occasion or necessity may require, and which his children must use to reach the district school.

"The farmers contribute more to national prosperity than all other classes combined, and yet are the recipients of less consideration in national favor. The 9,000,000 farmers in the United States are the feeders of all the other millions of our people, and are the sustainers of our wonderful commercial life. If these millions of farmers can market their products only when the highways are at their best, it is a sure proposition that for several months of the year the other millions must pay higher prices for everything they eat, because under the law of supply and demand prices must go up when the market is bare. In other words: In the fall of the year, when the roads are passable, farm products are rushed to market in excess of the demand, and prices go down at the farmer's expense. In the winter and spring, when roads are bad, farm products are shut out of market, and prices go up because of demand in excess of the supply—and this time the consumer pays the freight. Here we have the producer and consumer—and that means the body of the American people—both hit hard; and all on account of miserable wagon roads. Just as certainly as that substantial truth finds fixed mooring in the minds of thoughtful men, so certainly is the sentiment growing in favor of national aid to good roads. The demand for it is confined to no class, and he is a short-sighted student who cannot see that it is a question which has come to stay. It is a living question, and one so inseparably connected with the American home that aspiring statesmen will do well to reckon with it. It means everything to the government and the people.

The death of Joseph Jefferson removes from the American stage one of the brightest and most popular actors. From his appearance as a child three years old in the character of Jim Crow, back in the early thirties he has attracted attention for three-quarters of a century. Under his magic touch Rip Van Winkle became a real personality as did every character which he assumed. He died at the age of 76, beloved by many people in many lands.

According to recent government statistics the United States consumes more coffee than any nation in the world. Nearly 12 pounds per capita every year. The United Kingdom consumes double the amount of beer and about the same amount of whiskey as this country. This indicates

that there is still a good field for Postum Cereal and temperance.

There has just been issued by Professor Henry of the Agricultural Experiment station a pamphlet on the beet sugar industry of Wisconsin. It is known as bulletin No. 123 and contains much valuable information. The work should be in the hands of every beet grower in the state.

When the assembly gets through with the bachelor bill it might revise the corset measure of two years ago. Both are safe propositions and the members can vote as they please without consulting the governor.

At the ripe age of 78, Senator Platt passed away, in the full enjoyment of mental vigor. He knew no age limit and his constituency enjoyed to the last the benefits of wise counsel and faithful service.

Milwaukee wants an electric lighting plant. There is a second hand one for sale at Elgin, Illinois. That city is satisfied to quit after a few years' experience.

Who will be Senator Spooner's colleague at Washington next winter? That all depends upon whether the guardian of the state considers it safe to transfer the trust.

The government is about to investigate the printing department in an effort to discover where the six and a half million dollars went to last year.

John D. Rockefeller assisted in decorating the little Baptist church which he attends at Lakewood. No criticism was offered and nothing said about the taint of oil or dishonesty.

The Easter Sunday decorations were in keeping with the day, and new hats and gowns appeared with old-time regularity.

Senator Spooner has sailed for Europe. Senator La Follette is still navigating Wisconsin.

## PRESS COMMENT.

El Paso Herald: Admiral Meville proposes to swap the Philippines for the West Indies. There are only two objections: First, the present owners do not want to trade, and secondly, we have only to wait to get the West Indies ultimately. Commercial considerations are like the law of gravitation—they may be baffled for a while but they get in their work remorselessly in the end. And the islands about the gulf some day will be inside our customs lines growing bananas and sugar for us and taking our wheat and pork.

Superior Telegram: There is complaint again about the bawdy barbers in Duluth robbing lumber jacks by charging them several dollars for a shave and an "echo tonic." The "echo tonic" is said to be something new this spring and very expensive when used upon people who are under the influence of liquor or not familiar with the English language. A bawdy barber was fined \$51 yesterday, including costs, for charging a couple of men who couldn't talk English \$2.50 each for a shave and an "echo tonic."

Exchange: A brief excerpt from William Winter's essay on Jefferson's acting gives the keynote to his art: "Jefferson conspicuously is an actor who appeals to the deep, instinctive natural preference of humanity and who reaches it, arouses it and satisfies it. Throughout the whole of his mature career he has addressed the nobler soul of humanity and given to the people what they ought to have, and the actor who is really able to do that naturally conquers anything. It is not a matter of artifice and simulation; it is a matter of being genuine, and not a sham."

Fond du Lac Reporter: It is probable that one cigarette made of food tobacco and pure paper does as little or less harm than a cigar or pipe. The harm is in the QUANTITY, not the QUALITY. Anti-cigarette laws are designed to protect children. The principle is the same as that upon which the laws prohibiting the sale of intoxicating liquor to minors, is based. The original anti-cigarette laws were not more sweeping than the liquor law, but it was found so difficult to enforce them that more drastic measures were deemed necessary. ONE cigarette will not do a boy much harm. MANY will often ruin him physically and mentally. A cigar or pipe would make him very sick. The cigarette, being mild, does not, and he continues to smoke them, absorbing the poison in small doses until he is a wreck.

Milwaukee Sentinel: It begins to look a little as if Admiral Rojestvensky is destined to set by the ears the European powers indirectly yet perilously concerned in the war in the far east and perhaps to draw them into the conflict. Japanese resentment of his use of French colonial water is at a white heat, the Japanese government's protests are growing in pointedness, and there are signs that Great Britain is preparing to second the remonstrances of her ally. Disturbed by these portents of trouble, anxious to maintain her good relations with England, yet naturally unwilling to lessen the chances of success of Rojestvensky's venture which she has so materially aided thus far, France is making a great verbal show of maintaining her neutrality. "Reassuring measures" are sent to Japanese ministers, and Premier Rouvier notifies the anxious chamber of deputies "that formal, precise, and repeated orders have been given our agents in Indo-China to assure the absolute neutrality of France in Indo-Chinese waters."

Premier Rouvier may be perfectly sincere about those orders; but whether the French agents can carry them out or not appears to depend entirely on the convenience and complaisance of Rojestvensky.

WHEAT LOSSES  
ARE ENORMOUSGates Crowd Is Supposed to  
Have Lost \$2,000,000 on  
May Deal.

## ECHO OF MILWAUKEE FAILURE

Selling of Big Lot Is Supposed to Be  
Connected With the Transactions  
of F. G. Bigelow, but This Is Met  
With Denial.

Chicago, April 25.—Some of the remnants of the big Gates deal in May wheat were liquidated Monday and they proved larger than the trade generally expected. Fully 6,000,000 bushels were sold, and the avalanche broke the price 7 1/2 cents to 9 1/4 cents, with the close at 9 3/4 cents.

The fact that the market held around the closing figure for two hours, absorbing continued and heavy selling by brokers supposed to represent Gates, encouraged the belief that the liquidation must be practically complete, fully 18,000,000 bushels having been sold in eight days.

Near the close of the session traders were astounded and shocked by the report that the defalcation of Pres. F. G. Bigelow of the First National Bank of Milwaukee was due to speculation in May wheat, and the extent of this financial disaster distracted attention completely for a time from the larger losses of the Gates clique itself. Mr. Bigelow was not known to have been a speculator in grain, but his son, Gordon Bigelow, a member of the firm of Tracy & Co., had been known as a high roller and a plunger, and it was assumed he had involved his father in the deal.

## Selling Is Heavy.

The selling of about 750,000 bushels of May wheat in the last two hours of the session near 93 cents by Knight, Donnelley & Co. was connected at once with the Milwaukee failure. This house has carried a large block of the Gates line and its operations have always been supposed to be for the Gates clique. But the house has a wire to Milwaukee, and rumor soon started, based on this foundation, that the selling was for Bigelow. This was positively denied by the house which did the selling.

At the opening there was a wild rush to sell by brokers for some of the leading Gates houses, Bartlett, Frazier & Co., Knight, Donnelley & Co., and Woodbury, with transactions in different parts of the pit, covering a range of 2 cents, from 98 cents to 96 cents, the latter figure a break of 4 cents from the closing price of Saturday. Some of the big shorts had heavy buying orders, which rallied the market to the high opening point, but this demand was not large enough to meet the flood of offerings, and the market gradually worked lower.

## Lichtstern's Big Profits.

The largest demand was from J. H. Wrenn & Co., a house which has been the leading commission house in the market. The house was a continuous buyer from the opening until the close, taking probably 1,500,000 bushels. This buying, it is believed, was for Adolph P. Lichtstern, who sold a line of wheat short last fall, from \$1.12 to \$1.15. Although he has been in Europe since that time, Mr. Lichtstern is declared to have stuck to his position and to his short line, in spite of the big concentrated holding by the bulls and the prestige of Gates' wealth. With an average profit of possibly 18 cents a bushel Mr. Lichtstern is supposed to have made \$275,000.

Considerable selling was done by brokers who trade for John Cudahy, and that veteran operator was included among the losers. Of the selling of the day 4,000,000 bushels at least was supposed to be for the Gates clique at an average price not better than 95 cents, involving a loss of about 20 cents a bushel from the average price of the Gates holdings. The day's transactions, therefore, must have added approximately \$800,000 more to the losses of the Gates clique, which now must total \$2,000,000 at least.

## Domestic Economy.

Said Brown unto his wife one day: "We've nothing left to eat; if things go on in this queer way, we can't make both ends meet." His wife replied in words discreet: "Oh, we'll not be badly fed; you hustle and make one end meat and I'll make the other bread."

"Fame of the 'Agra.'"  
Speaking of the Agra diamond, which was sold recently in London, a London newspaper writer says: "I am disposed to think the 'Agra' only became famous about 1892, when it was the subject of a lawsuit. It had been sold for 50,000 pounds, but the jury, in the litigation referred to, by their verdict rescinded the contract. A curious circumstance is that this jewel is not mentioned in the only standard work on diamonds."

Sahara Sands Shifting.  
Along the northern edge of the Sahara ruins of the old Roman villas and temples half buried in the sand are found. They prove that within the last twenty centuries the Sahara sands shifted to the north, blotting out the verdure and narrowing the zone of green that skirts the northern edge of Africa.

Oysters Filled Him Up.  
Baron Graham once asked an epicure how many oysters he should eat in order to create a good appetite for dinner, and was told to eat away until he became hungry. The baron, who never saw a joke, ate ten dozen, and then plaintively remarked: "Pon my word, I don't think I am as hungry as when I began."

## Let Us Reason With You...

You would not knowingly partake of infected or impure food, yet the most important item of daily consumption is in most instances tainted with disease germs.

The milk which forms a part of your every meal may be from a seemingly healthy cow which has developed tuberculosis. Your only safeguard is the use of **Pasteurized Milk** delivered in small sterilized bottles.

## Carpets, Rugs and Floor Coverings.

Just the season of the year when these should be the main thought. And after pondering over it, before making your selection visit the "Big Store" and feast your eyes by looking at the largest and most complete stock in Southern Wisconsin.

Just opened a new line of—

### Room Size Rugs.

In sizes 6x9, 8-3x10-6, 9x12, comprising Tapestry Brussels, Axminster, Body Brussels, Velvet and Wiltons. A new line of choice patterns in Axminsters, by the yard with borders. Never had a more ready sale on anything, and they are goods that are the most satisfactory to buy.

### Linoleums, Oil Cloths and Matting

In Linoleum we have several weights, both printed and inlaid. The latter is equal to a hardwood floor for durability, and for the house-wife nothing is more easily taken care of.

The new **Fibre Carpeting** is a fine addition to the sleeping room and comes in several colors—red, blue, green, olive, &c. We are sole agents.

## CURTAINS.

After considering carpets, the Curtains follow. Just added to our line: Fifty pieces of new Figured Muslins in white and colors. New Curtain Nets in ecru and white. An endless variety of Curtains by the pair. Ruffled Nets, Ruffled Muslin, Plain Nets with inserting. Late novelties in Arabian effects, Brussels Net, &c.

In Colored Madras Curtain Goods we show a large variety, and some beautiful combinations of color. Twenty pieces of the latest patterns in China Silk Draperies, comprising both Oriental and floral effects. The new bordered Silks for over-curtains, mantel drapes, &c.

**WE KEEP THE QUALITY UP.**
